Nobody has greeted me today, everybody looks to the ground.
Seems like the grey has finally won...even her, that once was colourful, is grey.
Today is not my day, definitely is not my day...

"Lo he pensado y lo haré mejor, la tortura no es la solución, me he informado y pienso hacer vudú, nadie lo merece como tú! Coso tu muñeco de algodón y lo pincharé sin compasión! te he pinchado en el corazón, peligro de infarto en tu salón, hoy te cuesta mucho respirar, tres o cuatro agujas al azar! Coso tu muñeco de algodón y lo pincharé sin compasión! Y un muñeco en la olla express, en el horno y en la moulinex, el doctor te manda reposar, nadie sabe porque estas tan mal...Coso tu muñeco de algodón y lo pincharé sin compasión!" (UNDERSHAKERS)

träd

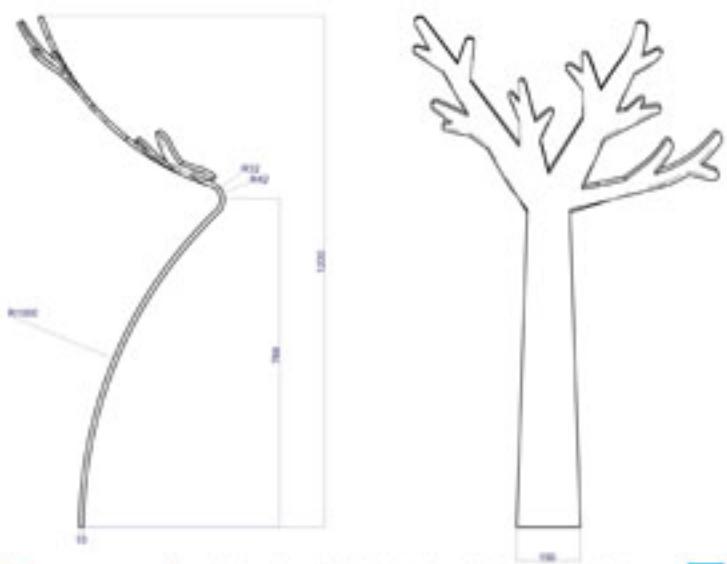

träd, es más que un mueble, un perchero o un sistema de almacenaje. träd es un refugio, un espacio personal donde el niño desarrolla sus fantasías y juegos. Un lugar donde sentirse seguro, aprender e imaginar. Ese bosque encantado donde poder soñar con héroes y princesas, brujas y dragones... y vivir mil y una aventuras.

El árbol, como ícono de sabiduría, refugio y lugar de juegos. Simbolo del crecimiento y de la vida. Acercamiento a una naturaleza cada vez más ausente, en una vuelta a los juegos tradicionales, hacia el desarrollo de la imaginación, sin artificios, la base para el crecimiento del mundo personal del niño.

Realizado en madera contrachapada curvada, acabado en haya. Consta de un módulo combinable en dos posiciones diferentes: apoyado a la pared, asegurado mediante accesorio en escuadra o en módulo de tres autoportante, montado en unión a 120° de contrachapado de acabado haya, asegurado mediante tornillos. Cojines realizados en Lycra rellenos de bolas de poliestireno.

mírAmé y No me ToqueS!

Ella estaba sentada en el extremo del banco, cautelosamente me senté en el otro extremo y pensé en ir acercandome poco a poco, pero mi timidez me lo impedia así como la reacción que ella pudiera tener. Coincidimos en alguna mirada, intercambiamos sonrisas. Me imaginé en ese momento que el banco se inclinaba y ella se deslizaba hacia mí poco a poco.

trash?

Rellenar lo nuevo con algo viejo e inútil ¿es basura?
objetos cotidianos, convertidos, enmascarados,
reciclados. Un relleno para cada momento.

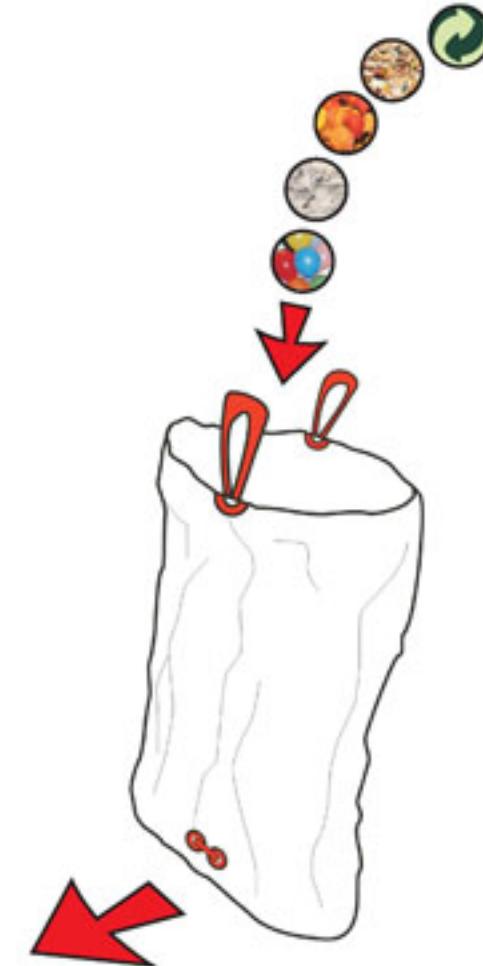

Las hojas secas del parque, se recogen y amontonan
en bolsas que permanecen allí, niños juegan
mientras los padres les vigilan y charlan desde el sofá
del parque.

Es una fiesta: globos por todas partes, es verano, y
tenemos ¿basura? llenamos bolsas con esos globos,
las tiramos a la piscina, es magia, y flota.

Ropa y trapos viejos, cosas blandas que se pueden
tirar, o no.

En un pueblo, amontonamos paja, la veo a través del
plástico.

En la ciudad, papel y revistas viejas, informan de
noticias caducadas, sentarse sobre el pasado ¿Es
basura?

Bolsa de tamaño 140 x 90cm realizada
en polietileno según las técnicas de
fabricación estándar para las bolsas
